

ROBINA SHAHEEN

FRONTEND DEVELOPER | FRONTEND ENGINEER

Faisalabad, Pakistan | Open to Remote Worldwide
robina1961739@gmail.com | robina-portfolio.vercel.app
linkedin.com/in/robina-shaheen-3ba1b1321 | github.com/RobinaShaheen

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive, modular, and maintainable interfaces using **React.js**, **Next.js**, **TypeScript**, **JavaScript (ES6+)**, and **Tailwind CSS**. Experienced in reusable components, responsive dashboards, role-based interfaces, REST API integration, and frontend collaboration with Python/Flask and PostgreSQL backends. Comfortable working through requirements, implementation, testing, code review, and delivery with a strong focus on clean code and user experience.

CORE TECHNICAL SKILLS

Frontend: Next.js, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

UI Engineering: Responsive Design, Reusable Components, Component Architecture, Role-Based Interfaces, Framer Motion

APIs & Backend: REST APIs, API Integration, Python, Flask, PostgreSQL

Tools: Git, GitHub, Vercel, VS Code, Postman

Development Practices: SDLC, Requirement Analysis, Testing, Code Reviews, Maintainable Code

PROFESSIONAL EXPERIENCE

Trainee Frontend Engineer | FISTA Solutions

Jul 2024 - Aug 2024 | Faisalabad, Pakistan

- Developed responsive and modular UI components with Next.js, React.js, and Tailwind CSS for web applications.
- Translated requirements into frontend implementations through analysis, component development, testing, code reviews, and delivery.
- Improved maintainability with reusable component patterns, structured frontend code, and consistent interaction patterns.

Lab Teaching Assistant | National Textile University

Feb 2024 - Jun 2024 | Faisalabad, Pakistan

- Supported programming lab sessions and guided students through programming fundamentals, data structures, and algorithms.

SELECTED PROJECTS

Frontend Developer - Automated Number Plate Recognition System (ANPRS) | Final-Year Project

Oct 2024 - Jun 2025 | National Textile University

- Built the frontend for a vehicle entry/exit management system using Next.js and React.js with responsive dashboards and role-based application flows.
- Integrated frontend workflows with Python/Flask APIs, video-processing events, EasyOCR, and computer-vision components for vehicle and number-plate recognition.
- Used PostgreSQL for recognition and application data and implemented reusable UI patterns for operational users.

Frontend Engineer - Personal Portfolio Website | Independent Project

Jul 2026 | Remote

- Designed and developed a responsive portfolio with Next.js, React.js, TypeScript, Tailwind CSS, and Framer Motion using reusable UI components.
- Implemented project, skills, experience, and contact sections and deployed the site on Vercel with a performance-focused user experience.

EDUCATION

M.S. in Computer Science - National Textile University, Faisalabad | Sep 2025 - Present | Currently in 3rd Semester

B.S. in Computer Science - National Textile University, Faisalabad | Sep 2021 - Oct 2025

CERTIFICATION

- Internship Completion Certificate - Trainee Frontend Engineer, FISTA Solutions | Aug 2024

PROFESSIONAL STRENGTHS

Component Architecture | Responsive UI Development | Reusable Components | REST API Integration | Clean & Maintainable Code
| Git/GitHub Workflow | Remote Collaboration
